

Blood Borne Pathogen Exposure Injury to a Western Dental Employee/Student

Attention: University Hospital Emergency Department:

- Western dental employee/student has incurred a blood borne pathogen exposure injury during work/training in Western's dental clinic
- Western employee/student will provide a detailed history of the incident
- Please provide the student with an assessment, blood testing and treatment as deemed appropriate within the first 2 hours of the incident
- Please have the student sign a consent waiver to have their blood test results sent to: Dr. Sydney Siu at Workplace Health, Western University. Fax # 519-661-2016
- Western dental employee/student is responsible for following-up in Workplace Health the next business day

The prompt attention to this incident is appreciated.
