

DERM DAY

for outdoor workers

Did you know...

the most common occupational cancer is SKIN CANCER?

If you do some of your work outdoors, come to the Workplace Health Office on Derm Day to have any of the following medical services:

- Skin check on sun-exposed areas
- Liquid nitrogen treatment of actinic keratoses (pre-cancerous skin spots)
- Biopsy of suspicious lesions
- FREE sunscreen samples
- Take-home info about skin self-checks and how to identify skin cancer

Appointments available:

Tuesday, July 21 & Wednesday, August 12

from 8:30 a.m. to 2 p.m.

*Book your appointment at Workplace Health
at extension 85472*

Protect your skin. Protect your health.
